

THEMAC Resources Group Limited

Condensed Consolidated Interim Financial Statements

For the three month period ended September 30, 2017

(Unaudited – prepared by management)

(Expressed in Canadian dollars)

Suite 488 – 625 Howe Street
Vancouver, BC
Canada V6C 2T6
TSXV: MAC

NOTICE OF NO AUDITOR REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the condensed consolidated interim financial statements, they must be accompanied by a notice indicating that an auditor has not reviewed the financial statements.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars)
SEPTEMBER 30, 2017

1. NATURE OF OPERATIONS AND GOING CONCERN

THEMAC Resources Group Limited (“THEMAC” or the “Company”) was incorporated on February 24, 1997 under the Business Corporations Act (Yukon) by registration of its Articles of Incorporation. The Company is in the business of acquiring, exploring, and developing natural resource properties. The address of the Company’s registered office is #488 – 625 Howe Street, Vancouver, BC, V6C 2T6, Canada.

The Company has one operating segment, which is the exploration and development of its mineral property. The Company’s assets are distributed in two geographic regions, Canada and the United States of America; however the assets in Canada are not significant.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities in the normal course of business for the foreseeable future. The Company incurred a loss of \$2,711,913 for the three month period ended September 30, 2017, and had a working capital deficiency of \$83,900,633 at September 30, 2017. In addition, the Company’s forecast cash requirements for the next twelve months exceeds the undrawn amount available under the Company’s loan agreement with Tulla Resources Group Pty Ltd. (“Tulla”) (Note 7). These factors indicate the existence of a material uncertainty that may cast significant doubt upon the Company’s ability to continue as a going concern. The continued support of shareholders and the ability to raise funds through the issuance of equity or debt will be required in order to enable the Company to continue and to advance the Copper Flat project. Realization values may be substantially different from carrying values, as shown, and these condensed consolidated interim financial statements do not give effect to the adjustment that would be necessary to the carrying values and classifications of assets and liabilities should the Company be unable to continue as a going concern.

2. BASIS OF PREPARATION

Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

Basis of presentation

These condensed consolidated interim financial statements have been prepared on a historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting except for supplemental cash flow information.

The condensed consolidated interim financial statements of the Company are presented in Canadian dollars, which is the functional currency of the parent company.

These condensed consolidated interim financial statements were authorized for issuance by the Company’s board of directors on November 29, 2017.

2. BASIS OF PREPARATION (cont'd...)

Significant accounting judgments and estimates

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect reported amounts of assets, liabilities, income and expenses. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, income and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual results may differ from these estimates and judgments.

Estimates

Accounts that require significant estimates as the basis for determining the stated amounts include the asset retirement obligation and share-based payments. Share-based payments expense is calculated using the Black-Scholes valuation model which requires significant judgment as to the consideration, such as stock option lives, forfeiture rates and stock volatility.

In estimating the asset retirement obligation provision, the Company makes assumptions about the required activities which will occur into the future including the cost and timing of such activities. The ultimate financial impact is not clearly known as decommissioning costs and techniques are subject to change, as are legal, regulatory, environmental, political, safety and other such considerations. In arriving at amounts recorded, assumptions and estimates are made on ultimate settlement amounts in discussion with the Company's management and professional staff.

Judgments

The functional currency for the Company is the primary economic environment in which the entity operates. Management has assessed various factors including the costs of inputs and has determined the functional currency of the Company to be the Canadian dollar and its subsidiary, New Mexico Copper Corporation ("NMCC"), to be the US dollar.

The application of the Company's accounting policy for mineral property and deferred exploration and evaluation expenditures requires judgment in determining whether future economic benefits are likely, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditures are capitalized, information becomes available suggesting that the recovery of expenditures is unlikely, the amount capitalized is recognized in loss in the period that the new information becomes available.

An assessment of any impairment indicators for mineral properties, deferred exploration and evaluation costs is dependent upon factors such as resources, economic, and market conditions. The Company has judged that no such impairment indicators exist.

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars)
SEPTEMBER 30, 2017

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those used in the preparation of the audited consolidated financial statements for the year ended June 30, 2017.

New standards not yet adopted

IFRS 9 Financial Instruments (Revised)

IFRS 9 was issued by the IASB in October 2010. It incorporates revised requirements for the classification and measurement of financial liabilities and carrying over the existing derecognition requirements from IAS 39 *Financial instruments: recognition and measurement*. The revised financial liability provisions maintain the existing amortized cost measurement basis for most liabilities. New requirements apply where an entity chooses to measure a liability at fair value through profit or loss – in these cases, the portion of the change in fair value related to changes in the entity's own credit risk is presented in other comprehensive income rather than within profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018. The impact of IFRS 9 on the Company's financial instruments has not yet been determined.

IFRS 16 Leases

IFRS 16 is a new standard that sets out the principles for recognition, measurement, presentation, and disclosure of leases including guidance for both parties to a contract, the lessee and the lessor. The new standard eliminates the classification of leases as either operating or finance leases as is required by IAS 17 and instead introduces a single lessee accounting model. IFRS 16 is effective for annual periods beginning on or after January 1, 2019. The impact of IFRS 16 on the Company's leases has not yet been determined.

4. PREPAID EXPENSES AND DEPOSITS

Prepaid expenses and deposits are integrated as follows:

| | September 30, 2017 | June 30, 2017 |
|-------------------------------------|-----------------------|------------------|
| Advances to vendors and contractors | \$ 1,650 | \$ 300 |
| Prepaid insurance | 18,722 | 14,295 |
| Lease and rent deposits | 63,146 | 12,232 |
| | <u>\$ 83,518</u> | <u>\$ 26,827</u> |

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements

| Balance, September 30, 2017 | \$ - | \$ 75,180 | \$ 898,872 | \$ 974,052 |
| Net Book Value | | | | |
| As at June 30, 2017 | \$ 3,244,250 | \$ - | \$ 244,556 | \$ 3,488,806 |
| As at September 30, 2017 | \$ 3,116,350 | \$ - | \$ 136,429 | \$ 3,252,779 |

Depreciation of \$77,120 (2016 - \$124,247) has been capitalized to deferred exploration and evaluation expenditures.

6. MINERAL PROPERTY

Copper Flat Project

| | Mineral property | Deferred exploration and evaluation | Total |
|-----------------------------|---------------------|---|---------------|
| Balance, June 30, 2016 | \$ 33,339,054 | \$ 34,111,007 | \$ 67,450,061 |
| Additions | - | 3,250,774 | 3,250,774 |
| Net exchange differences | 154,984 | 85,950 | 240,934 |
| Balance, June 30, 2017 | 33,494,038 | 37,447,731 | 70,941,769 |
| Additions | - | 3,510,919 | 3,510,919 |
| Net exchange differences | (1,321,499) | (1,720,972) | (3,042,171) |
| Balance, September 30, 2017 | \$ 32,172,539 | \$ 36,237,978 | \$ 68,410,517 |

Pursuant to the completion of its obligations under an acquisition agreement, the Company controls 100% of the mineral rights of the Copper Flat Project in New Mexico, USA.

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars)
SEPTEMBER 30, 2017

6. MINERAL PROPERTY (cont'd...)

Copper Flat Project (cont'd...)

The property is subject to a 3.25% net smelter return royalty, and quarterly advance royalty payments of US\$50,000 (for copper prices under US\$2.00/lb) or US\$112,500 (for copper prices greater than US\$2.00/lb).

On September 9, 2010, the Company entered into an option agreement to acquire the water rights related to Copper Flat. The Company has paid US\$1,500,000 in connection with the agreement and is required to pay US\$700,000 within 60 days after the Minerals Division of the New Mexico Energy, Minerals and Natural Resources Department issues a permit for the commercial operation of the mine, or on August 1, 2018, whichever occurs first.

Bonds and deposits

As at September 30, 2017, the Company has posted bonds of \$330,136 (US\$264,842) (June 30, 2017 – \$343,686 (US\$264,842)) in connection with the drilling permits for Copper Flat and deposits of \$15,497 (US\$12,432) (June 30, 2017 - \$19,215 (US\$14,807)) posted with the Bureau of Land Management pursuant to a cost recovery agreement.

Asset Retirement Obligation

The Company has an asset retirement obligation in connection with certain possible environmental liabilities resulting from work done at the Copper Flat project.

| | September 30, 2017 | June 30, 2017 |
|----------------------------------|-----------------------|-------------------|
| Balance, beginning of the period | \$ 470,929 | \$ 459,290 |
| Finance expense | 2,342 | 9,718 |
| Net exchange differences | (18,578) | 1,921 |
| Balance, end of the period | <u>\$ 454,693</u> | <u>\$ 470,929</u> |

The total amount of estimated undiscounted cash flows required to settle the Company's estimated obligation is US\$406,442 (June 30, 2017 - US\$406,442) which has been discounted using a pre-tax risk-free rate of 2.06% (June 30, 2017 – 2.06%) and an inflation rate of 1.10% (June 30, 2017 – 1.10%). The present value of the decommissioning liabilities may be subject to change based on management's current estimates, changes in remediation technology or changes to the applicable laws and regulations. Such changes will be recorded in the accounts of the Company as they occur.

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars)
SEPTEMBER 30, 2017

7. LOANS PAYABLE

| | Principal | Finance Expense | Total |
|-----------------------------|---------------|-----------------|---------------|
| Balance, June 30, 2016 | \$ 40,637,246 | \$ 26,240,658 | \$ 66,877,904 |
| Additions | 3,200,831 | 8,450,198 | 11,651,029 |
| Balance, June 30, 2017 | 43,838,077 | 34,690,856 | 78,528,933 |
| Additions - Loan | - | 2,209,920 | 2,209,920 |
| Additions - NMCC Loan | 610,901 | 17,544 | 2,838,365 |
| Net exchange differences | (9,071) | (95) | (9,166) |
| Balance, September 30, 2017 | \$ 44,439,907 | \$ 36,918,225 | \$ 81,358,132 |

The Company has a loan agreement (the "Loan") with Tulla, a firm that invests in natural resources. Mr. Kevin Maloney, who is Chairman of THEMAC is also director of Tulla. The Loan bears interest at 20% per annum. The Loan can be repaid by the Company at any time without penalty, and is payable on demand. Tulla has not made demand for payment.

During the year ended June 30, 2017, the Company and Tulla extended the Loan to a maximum facility of \$44,500,000, of which \$43,838,077 was drawn at June 30, 2017. During the period ended September 30, 2017, the Company incurred an additional \$2,209,920 in finance expense on the Loan.

On June 30, 2017, the Company assigned the Tulla Loan to its subsidiary, NMCC. The Company has provided a guarantee of the repayment of the Loan on behalf of NMCC. As at September 30, 2017, the Company has received funds in excess of the Loan facility.

8. PROPERTY OBLIGATION

During the year ended June 30, 2013, the Company entered into an agreement, as subsequently amended, ("Fancher Agreement") with a local rancher to purchase 1,220 acres of land within the Copper Flat Project area.

The total purchase price of the land is US\$2,500,000 ("Purchase Price") of which US\$325,000 (the "Initial Payment") was paid during the year ended June 30, 2013. The Company will pay installments of US\$125,000 on the second, third and fourth anniversaries of the Initial Payment and the balance of US\$1,800,000 ("Final Payment") on or before the fifth anniversary of the Initial Payment. During the years ended June 30, 2015, 2016 and 2017, the Company paid US\$125,000 plus accrued interest pursuant to the second, third and fourth anniversary payments, respectively.

Interest accrues at a rate of 3.5%, adjusted to changes in LIBOR, per year on the Purchase Price less installments paid to date.

THEMAC Resources Group Limited
Notes to the Condensed Consolidated Interim Financial Statements
(Expressed in Canadian Dollars)
SEPTEMBER 30, 2017

8. PROPERTY OBLIGATION (cont'd...)

If the Company has not, before the fifth anniversary of the Initial Payment, obtained all permits and approvals it deems necessary for the commercial operation of the Copper Flat Project, the Final Payment may be deferred for not more than five additional years if the Company makes ongoing annual installments of US\$125,000 until the Final Payment (which will be reduced by the additional installments) and is making satisfactory progress toward obtaining such permits. As the Company has not currently obtained all permits and approvals deemed necessary for the commercial operation of the Copper Flat Project, nor does the Company anticipate obtaining such permits and approvals by the fifth anniversary date (May 1, 2018), the Company intends to defer the Final Payment by making the annual installments of US\$125,000 by the fifth anniversary and subsequent anniversaries, until the earlier of the expiration of the Fancher Agreement, or such time that the permits and approvals are obtained.

| Balance, end of the period | 2,286,521 | 2,353,427 |
| Payable within the next fiscal year | (198,566) | (179,779) |
| Long-term portion | \$ 2,087,955 | \$ 2,173,648 |

If the Company fails to make any payment under the terms of the Fancher Agreement, the vendors may issue notice of default which allows for a 30 day remedy period. If the period lapses without remedy, the vendors may elect to terminate the agreement, retain all payments made to date under the agreement and retain the land.

9. EQUITY

a) Authorized share capital

Unlimited common shares without par value.

b) Issued and fully paid

The Company did not complete any private placements during the three months ended September 30, 2017 or the year ended June 30, 2017.

c) Warrants

There are no warrants outstanding as at September 30, 2017 and June 30, 2017.

d) Stock options

The Company has adopted a formal stock option plan (the "Plan"). The Plan is a fixed plan and reserves up to 15,880,024 common shares for issuance at the time of the grant of a stock option under the Plan. Stock options can be granted for a term not to exceed ten years. Stock options are granted with an exercise price in accordance with the TSX Venture Exchange policy.

9. EQUITY (cont'd...)

d) Stock options (cont'd...)

The continuity of stock options is as follows:

| | Options outstanding | Weighted average exercise price |
|--|------------------------|---------------------------------------|
| Balance on June 30, 2016 | 9,652,194 | \$ 0.09 |
| Expired | (75,000) | 0.15 |
| Balance on June 30, 2017 | 9,577,194 | 0.05 |
| Granted | 4,448,000 | 0.05 |
| Balance outstanding and exercisable, September 30, 2017 | 14,025,194 | \$ 0.05 |

Stock options outstanding and exercisable as at September 30, 2017 are as follows:

| Options | Weighted average exercise price | Expiry date |
|-----------|------------------------------------|--------------------|
| 9,577,194 | \$ 0.05 | August 22, 2022 |
| 4,448,000 | \$ 0.05 | September 12, 2022 |

During the three months ended September 30, 2017, the Company granted 4,448,000 stock options to directors, employees, officers and consultants; each option is exercisable at a price of \$0.05 per share until September 12, 2022. The Company has recognized share-based payments expense of \$171,679. The weighted average assumptions used for the Black-Scholes valuation of the options were annualized volatility of 190%, risk-free interest rate of 1.75%, expected life of 5.0 years and a dividend rate of Nil%

During the year ended June 30, 2017, the Company amended the exercise price and expiry date of the 9,577,194 outstanding stock options to \$0.05 and August 22, 2022, respectively. This resulted in additional share-based payments expense of \$120,793, of which \$87,959 has been capitalized to deferred exploration and evaluation as at June 30, 2017. The weighted average assumptions used for the Black-Scholes valuation of re-priced options were annualized volatility of 194%, risk-free interest rate of 0.91%, expected life of 4.7 years and a dividend rate of Nil%.

10. RELATED PARTY TRANSACTIONS

10. RELATED PARTY TRANSACTIONS (cont'd...)

The aggregate of amounts paid or accrued to parties not at arm's length to the Company for three month periods ended September 30, 2017 and 2016 consist of the following:

| | 2017 | 2016 |
|---|-----------|-----------|
| Amounts paid or accrued to key management personnel: | | |
| Cash compensation and accrued bonuses – expensed | \$ 81,694 | \$ 84,030 |
| Cash compensation and accrued bonuses – capitalized to deferred exploration and evaluation assets | 39,170 | 40,787 |
| Directors' fees | 78,750 | 87,500 |
| Fair value of modified stock options held by senior management and directors | 106,142 | - |
| Related party transactions: | | |
| Advances received on Tulla loans (Note 7) | 610,901 | 759,944 |
| Interest accrued on Tulla loans (Note 7) (unpaid) | 2,227,464 | 2,080,675 |

Amounts due to related parties consist of amounts due for expense reimbursements and accrued fees for compensation disclosed above. Amounts are non-interest bearing and due on demand.

11. SUPPLEMENTAL DISCLOSURES WITH RESPECT TO CASH FLOWS

During the three month period ended September 30, 2017, the Company entered into the following non-cash transactions:

- Incurred \$723,966 (2016 - \$29,470) of deferred Copper Flat exploration and evaluation expenditures through trade and other payables and \$614,633 (2016 - \$Nil) through due to related parties.
- Recognized depreciation of \$77,120 (2016 - \$124,247) in deferred Copper Flat exploration and evaluation expenditures.

12. SEGMENTED INFORMATION

The Company operates in one business segment which is the exploration of its mineral property in New Mexico, USA. The Company's non-current assets are located in the United States of America.

13. CAPITAL DISCLOSURES

The Company considers its loan payable and share capital as capital. The Company's objective when managing capital is to maintain a flexible capital structure for the benefit of its shareholders. The Company's main source of funds is from drawdowns on its loan from Tulla and the issuance of common shares.

The Company keeps its cash only in chequing accounts with major Canadian, Australian and US institutions of high credit worthiness. At September 30, 2017, the Company had cash of \$106,010 (June 30, 2017 - \$128,471).

The Company is not subject to any externally imposed capital requirements. There were no changes to the Company's approach to capital management during the period ended September 30, 2017.

14. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, receivables, bonds, trade and other payables, amounts due to related parties, loan payable and property obligation. The fair value of cash is measured using Level 1 of the fair value hierarchy as it is based on unadjusted quoted prices in active market. The fair value of receivables, bonds, trade and other payables, due to related parties and loan payable approximate their carrying values due to their short-term nature.

The property obligation is carried at amortized cost. The fair value of the property obligation approximates its carrying value as it reflects the amount payable as at the reporting date to discharge the liability.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments are summarized below.

Currency Risk

The Company is subject to currency risks. The Company's Copper Flat project is located in the United States of America, and many of the Company's expenditures on this project are denominated in US dollars. The Company maintains its principal office in Canada, and has monetary assets and liabilities in Canadian and US dollars. The currency exchange rate between the US and Canadian dollars fluctuated from a low of US\$0.77 to a high of US\$0.82 for CAD\$1 during the three month period ended September 30, 2017. The Company has estimated that a change of 10% in the currency rate could affect the total comprehensive income (loss) by approximately \$6,800,000. As such, the Company's results of operations are subject to foreign currency fluctuation risks and such fluctuations may adversely affect the financial position and operating results of the Company. The Company has not undertaken to mitigate foreign currency risk at this time, and does not use derivative instruments to reduce its exposure to currency risk.

Interest rate and credit risk

The Company has a cash balance, receivables, trade and other payables, amounts due to related parties, loan payable (Note 7) and property obligation (Note 8). Amounts owed to related parties, excluding the loan payable, do not bear interest, and, therefore, these amounts are not exposed to interest rate variations. The loan payable bears an interest rate of 20% per annum on outstanding amounts. The property obligation bears interest at a rate of 3.5% per annum adjusted for fluctuations in LIBOR. While changes in LIBOR were insignificant in the period presented, it is possible that adjustments in the future could be significant.

Receivables typically consist of Canadian Goods and Services Tax ("GST") due from the Federal Government of Canada. Management believes that the credit risk with respect to receivables is remote. In addition, the Company is satisfied with the credit rating of the banks where the cash is held.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations with respect to financial liabilities as they fall due. The Company's financial liabilities are comprised of trade and other payables, due to related parties, loan payable and property obligation. The Company frequently assesses its liquidity position by reviewing the timing of amounts due and future obligations compared to the Company's current cash position and expected cash receipts. The objective of the Company is to manage its liquidity risk by maintaining sufficient cash to meet its anticipated operational needs. Due to the relatively low cash position of the Company, the Company is exposed to liquidity risk.

14. FINANCIAL INSTRUMENTS (cont'd...)

Liquidity risk (cont'd...)

The Company has identified the outstanding Tulla Loans and negative working capital position as a significant liquidity risk to the Company. Tulla has not made demand for payment of the Loans to date.
